

# Life Crypto whitepaper 3.0

# life crypto

At **LIFE** Crypto, we are building towards a seamless crypto payment infrastructure, and we're making it easy.

The **LIFE** Crypto app will be the backbone to support cross chain compatibility, a wide variety of tokens, bank transfers, and retail transactions. All with the simplicity of using @username identification vs the complex coding system today.

As **LIFE** moves forward we will release multiple app phases and business collaborations which include fiat ramping, debit cards, DEX, exchange listings, and retail/crypto partnerships.

This is progress, at the speed of **LIFE**.

# vision

The **LIFE** Team is building a comprehensive suite of products that are easy to use no matter the level of experience one has with cryptocurrencies or blockchain.

Our vision is to bridge crypto with everyday transactions in the real world, while adding the simplicity of username identification and the versatility of a multi-chain wallet.

**LIFE** token is the key to the entire ecosystem. It plays a vital role in staking, app functionality, retail purchases, bank transfers, and **LIFE** debit card transactions.

**LIFE** is a new kind of money.

## the life token

**LIFE** Token powers the infrastructure being built by the **LIFE** Team and by fiduciaries from our partner ecosystem. **LIFE** Token is a fixed supply of 10 billion tokens, initially launching on the Ethereum mainnet.

**LIFE** as an ERC20 based token benefits from Ethereum's battle-tested security architecture and the ongoing innovations from its large open-source community. With the upcoming ETH V2 release, **LIFE** has the advantage of being highly upgradable and can integrate more seamlessly with bridges to other EVM compatible chains for token swaps or sending and receiving, such as Polygon, BSC, Cosmos, etc.

The **LIFE** wallet will offer a unique advantage by being multi chain compatible and support a high number of tokens, allowing the user to receive and send various cryptocurrencies with the ease of @ username functionality.

# life wallet

The **LIFE** Wallet is easy.

With highly curated features and secure defi protocols, **LIFE** is creating a simple and safe user experience to onboard and engage investors of any experience level. With one powerful wallet, crypto transfers, retail purchases, and elite passive income earning potential are available at the touch of a button.

The **LIFE** wallet is evolving.

**LIFE's** multi-chain wallet is strategically positioned to set the pace for the fast-moving innovation of the cryptocurrency sector. With flexible protocols that allow **LIFE** to bridge to the most advanced blockchain technologies, **LIFE** will always have the best offerings in terms speed, fees and reliability.

The **LIFE** wallet is ready.

The time is now to bridge the blockchain to the real-world, and **LIFE** is pushing that reality forward with high-speed transactions between **LIFE** wallet users via simple @ username functionality. Online shopping, ordering takeout, sending money to friends, all within our secure wallet.

# life staking

**LIFE** holders are able to earn passive income by staking **LIFE** tokens on our website's native best-in-class staking platform, and across services such as providing liquidity to partner DEXs and even our own DEX in the future.

**LIFE** offers one the most competitive single asset staking platforms in the market, with flexible earning and time period options, all fully secured by audited smart contracts.

You will not find a more competitive staking service than our 39% 12 month duration. We offer this incentive to our community as we work with passion to deliver our amazing **LIFE** app.
